

Conduct of Privacy Impact Assessment

P.I.A.

THEME: “Data Privacy Awareness Seminar-Workshop”

August 18, 2017

CHED – National Capital Region

CP Garcia Ave., UP Campus, Diliman, Quezon City

Dr. Rolando R. Lansigan

Chief, Compliance and Monitoring Division

National Privacy Commission (NPC)

**THE
FIVE
PILLARS
OF
COMPLIANCE**

Commit to
Comply:
Appoint a Data
Protection
Officer (DPO)

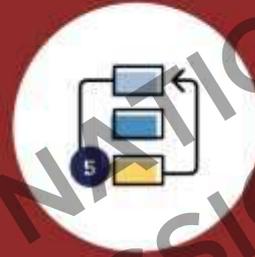

Know Your Risk:
Conduct a
Privacy Impact
Assessment
(PIA)

Be
Accountable:
Create your
Privacy
Management
Program and
Privacy Manual

Demonstrate
Your
Compliance:
Implement your
privacy and
data protection
(PDP)
measures.

Be Prepared for
Breach:
Regularly
exercise your
Breach
Reporting
Procedures
(BRP).

How to Conduct a
Privacy Impact Assessment

PROPERTY OF THE NATIONAL
PRIVACY COMMISSION

Privacy Impact Assessment

- What is PIA?
 - A privacy impact assessment (PIA) is a tool for identifying and assessing privacy risks throughout the development life cycle of a program or system.
 - A privacy impact assessment states what personally identifiable information (PII) is collected and explains how that information is maintained, how it will be protected and how it will be shared.
- A PIA should identify:
 - Whether the personal data being collected complies with legal requirements of the DPA
 - The risks and effects of collecting, maintaining and disseminating PII.
 - Protections and processes for handling information to alleviate any potential privacy risks.
 - Options and methods for individuals to provide consent for the collection of their PII.
- Stages of PIA
 - Stage 1: Initial Screening
 - Stage 2: PIA
 - Stage 3: Final Report and Sign Off

Assign the Roles

- In your teams, assign the following roles:
 - Head of the Organization
 - Process Owner
 - Data Subject
 - Legal Officer
 - ICT Officer
 - DPO
 - Civil Society
 - HR
 - National Privacy Comm.

| <h2 data-bbox="102 110 633 164">Closed Circuit TV</h2> <p data-bbox="102 181 620 445">In an effort to reduce criminality in the barangay, barangay officials decide to install high- definition CCTVs at critical locations in the neighborhood.</p> <p data-bbox="102 497 600 718">To save costs, the cameras were connected by wi-fi to the cable TV network in the area and feed into a data center in the barangay hall.</p> <p data-bbox="102 770 633 1035">Some hackers took over one of the cameras and used it to film an intimate moment with another neighbor. This footage was broadcast on pornographic website.</p> | <h2 data-bbox="691 110 1155 164">Feelings Graph</h2> <p data-bbox="691 181 1219 401">In order to test a new feature in its smartwatch, a company ordered all 500 of its employees to wear the new smartwatch 24 x 7.</p> <p data-bbox="691 454 1238 718">The new feature collects information on heartbeat and skin temperature at any given time, e.g. when talking to the boss, or while having merienda with a co-employee.</p> <p data-bbox="691 770 1238 1078">The resulting “Feelings Graph” is then posted to a social media site where the wearer can attach captions to specific events on the graph to explain what was happening on key portions of the graph.</p> | <h2 data-bbox="1280 110 1744 164">Email Invitation</h2> <p data-bbox="1280 181 1818 489">A church worker collected emails of church-goers interested to participate in a seminar on alcoholism and drug-abuse self-rehabilitation. These seminars are conducted once a month.</p> <p data-bbox="1280 541 1818 849">An email blast was sent displaying all the emails of the persons who were invited or expressed interest. One of the invited seems to be a known celebrity, and another seems to be an LGU member.</p> <p data-bbox="1280 901 1818 1078">The list is leaked to the press, and speculation about the identities becomes a trending topic on Twitter.</p> |

Case Study A

Vaccination Program

The Department of Health requires those who participate in the Libreng Bakuna Program to sign up using forms provided for the purpose by the DOH.

The forms indicated that the participants must enter their name, age, address, name of child, proof of billing/ residence, government-issued identification details and photo.

The sheets will be kept in a folder in the office of the Barangay Health Officer. Around one hundred families plan to avail of the free vaccination.

STAGE 1 – Initial Screening Questions

Answering **“Yes”** to any of the screening questions below represents a potential IG risk factor that will have to be further analyzed to ensure those risks are identified, assessed and fully mitigated.

| Q | Category | Screening question | Yes/No |
|-----|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| 1.1 | Identity | Will the project involve the collection of new information about individuals? | |
| 1.2 | Identity | Will the project compel individuals to provide information about themselves? | |
| 1.3 | Multiple organizations | Will information about individuals be disclosed to organizations or people who have not previously had routine access to the information? | |
| 1.4 | Data | Are you using information about individuals for a purpose it is not currently used for, or in a way it is not currently used? | |
| 1.5 | Data | Does the project involve using new technology which might be perceived as being privacy intruding for example biometrics or facial recognition? | |
| 1.6 | Data | Will the project result in you making decisions or taking action against individuals in ways which could have a significant impact on them? | |
| 1.7 | Data | Is the information about individuals of a kind particularly likely to raise privacy concerns or expectations? For example health records, criminal records, or other information that people are likely to consider as private? | |
| 1.8 | Data | Will the project require you to contact individuals in ways which they may find intrusive? | |

If you have answered **“Yes”** to any of the questions please proceed and complete stage 2. If **“No”**, proceed to stage 3 and sign off.

PROCESS OWNER: As the owner of this process, I have called this meeting today to conduct a privacy impact assessment. To get all of us on the same page, let us review the following:

1. What data is being collected by this process (list all, including personal as well as non-personal)

2. Which data (if any) is considered sensitive personal information (underline these)

3. Who are we collecting this data from

4. How are we collecting this data

5. Why is this data being collected

6. Will we use this data to make any decisions that have a legal effect on the data subject

7. Who will be handling and accessing this data

8. Will the data be shared with any other organizations

9. What is the key benefit/s the data subject gets from this process

10. What is the key benefit/s for the community or society

PROPERTY OF THE NATIONAL
PRIVACY COMMISSION

LEGAL OFFICER: As the legal officer, I need to ensure that what we are doing is legally allowed and in compliance with the Data Privacy Act of 2012. Let us review the following:

| | |
|------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 1. What is the legal basis for collecting this data 2. Are we over-collecting | |
| 3. How will consent be obtained 4. Do individuals have the opportunity and/or right to decline to provide data 5. What happens if they decline | |
| 6. How will the data collected be checked for accuracy 7. How will data subjects be allowed to correct errors, if any | |
| 8. Will the data be re-used 9. How | |
| 10. How long are we required to keep the data 11. How do we plan to dispose of the data | |

PROPERTY OF THE NATIONAL PRIVACY COMMISSION

DATA SUBJECT: As one of those whose data is being collected by this process, I have certain fears and concerns about the impact of this process on my data privacy. Allow me to express these:

| | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|--|
| 1. How easy would it be to identify me (on a scale of 1 to 4) if this data were to be breached or exposed? | 1: virtually impossible 2: difficult but possible 3: relatively easy 4: extremely easy | |
| 2. What things might happen if someone unauthorized gets this data 3. How might this happen (describe scenario/s) 4. How much damage would this cause me (on a scale of 1 to 4) | 1: slight inconvenience 2: stressful inconvenience 3: major difficulties 4: extreme consequences | |
| 5. What things might happen if someone alters or changes my data 6. How might this happen (describe scenario/s) 7. How much damage would this cause me (on a scale of 1 to 4) | 1: slight inconvenience 2: stressful inconvenience 3: major difficulties 4: extreme consequences | |
| 8. What things might happen if this data suddenly becomes unavailable 9. How might this happen (describe scenario/s) 10. How much damage would this cause me (on a scale of 1 to 4) | 1: slight inconvenience 2: stressful inconvenience 3: major difficulties 4: extreme consequences | |
| 11. What things might happen if this data is used for other purposes 12. How might this happen (describe scenario/s) 13. How much damage would this cause me (on a scale of 1 to 4) | 1: slight inconvenience 2: stressful inconvenience 3: major difficulties 4: extreme consequences | |

MAYOR/CEO/HoA: Allow me to recap the discussion so far:

| | |
|-----------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| Given this process | Vaccination Program |
| With legal purpose | DoH Regulation |
| Providing this benefit (H/M/L) | High |
| Which collects this data | name, age, address, name of child, proof of billing/ residence, government-issued ID, photo |
| With identification level of (1-4) | 4 |
| The privacy risks that may lead to level 3 or 4 damage are as follows | Alteration of integrity Loss of availability |
| Overall privacy risk (H/M/L) | High |

ICT/Developer: In order to design and implement the system properly, I need to understand the system requirements. Help me to answer the following:

| | | | |
|---------------------------------------------------------------------------------------|------------------------------------|------------------------------------|------------------------------------|
| The system will process personal data of Filipino nationals. | <input checked="" type="radio"/> T | <input type="radio"/> F | <input type="radio"/> D |
| The system will process personal data of citizens of other countries. | <input type="radio"/> T | <input type="radio"/> F | <input checked="" type="radio"/> D |
| The total no. of data subjects whose records we will store is more than 250. | <input checked="" type="radio"/> T | <input type="radio"/> F | <input type="radio"/> D |
| The total no. of data subjects whose records we will store is more than 100,000. | <input type="radio"/> T | <input checked="" type="radio"/> F | <input type="radio"/> D |
| We process personal data on paper and other media such as microfilm, microfiche. | <input checked="" type="radio"/> T | <input type="radio"/> F | <input type="radio"/> D |
| We process personal data using digital media such as hard disks, CDs, and servers. | <input checked="" type="radio"/> T | <input type="radio"/> F | <input type="radio"/> D |
| The personal data is used to make decisions with legal effect about the data subject. | <input checked="" type="radio"/> T | <input type="radio"/> F | <input type="radio"/> D |
| The personal data that we process is scattered over several geographical sites. | <input type="radio"/> T | <input checked="" type="radio"/> F | <input type="radio"/> D |
| The personal data will be accessed by users outside of our organization. | <input type="radio"/> T | <input type="radio"/> F | <input checked="" type="radio"/> D |
| The personal data will be accessed by users from other parts of the world. | <input type="radio"/> T | <input type="radio"/> F | <input checked="" type="radio"/> D |
| The personal data will be accessed by programs not developed by us. | <input type="radio"/> T | <input checked="" type="radio"/> F | <input type="radio"/> D |
| The personal data must be accessible 24 hours a day, 7 days a week. | <input checked="" type="radio"/> T | <input type="radio"/> F | <input type="radio"/> D |
| The data and the system can be located in the premises of a service provider. | <input type="radio"/> T | <input checked="" type="radio"/> F | <input type="radio"/> D |
| There is a sub-second response time requirement for access to our data. | <input type="radio"/> T | <input type="radio"/> F | <input checked="" type="radio"/> D |
| The number of people who will have access to the personal data is more than 50. | <input type="radio"/> T | <input checked="" type="radio"/> F | <input type="radio"/> D |
| The number of people who will have access to the personal data is more than 250. | <input type="radio"/> T | <input checked="" type="radio"/> F | <input type="radio"/> D |
| There is a high risk of natural calamity in our area. | <input type="radio"/> T | <input type="radio"/> F | <input checked="" type="radio"/> D |
| The data we hold is considered an attractive target for hackers and identity thieves. | <input checked="" type="radio"/> T | <input type="radio"/> F | <input type="radio"/> D |
| The data and the system must be kept on-premise and cannot be moved to the cloud. | <input type="radio"/> T | <input type="radio"/> F | <input checked="" type="radio"/> D |
| TOTAL | | | |

Instructions

Encircle T (True), F (False), D (Don't know or not sure)

Scoring

5 points for every T
5 points for every D

Technical Risk

0 to 35: LOW
40 to 70: MEDIUM
Above 70: HIGH

DPO: As your DPO, I would like to support this process.

However, allow me to ask the following questions:

| | | Cost/Effort (H/M/L) |
|-----------------------------------------------------------------------------------------|--|------------------------|
| Is there a way we can increase the benefits provided? If yes, how? | | M |
| Is there a way we can collect less data and thus reduce the exposure level? | | L |
| How can we reduce the privacy risks related to someone unauthorized getting this data? | | L |
| How can we reduce the privacy risks related to someone altering or changing the data? | | M |
| How can we reduce the privacy risks related to the data suddenly becoming inaccessible? | | M |
| How can we reduce the privacy risks related to re-using the data for other purposes? | | M |

MAYOR/CEO: As Mayor/CEO, allow me to summarize the discussion:

| | |
|---------------------------------------|-------------------------|
| Given this process | Vaccination Program |
| With legal purpose | DoH Regulation |
| Providing this benefit (H/M/L) | High (free vaccination) |
| Which collects this data | Proof of residency |
| With identity exposure level of (1-4) | 4 |
| Overall privacy risk (H/M/L) | High |
| Technical risk (H/M/L) | Medium |
| Controls Complexity (H/M/L) | Medium |
| Overall Assessment | ACCEPTABLE |

Stage 3: Final Report and Sign Off

Identified Risks, Agreed Actions and Sign Off Form.

| Privacy Issue | Risk to Individuals | Compliance Risk | Corporate Risk |
|---------------|---------------------|-----------------|----------------|
| | | | |

What are the key privacy issues and associated compliance and corporate risks? (Some Privacy Issues may have more than one type of risk i.e. it may be a risk to individuals and a corporate risk)

| Risk | Solution (s) | Result: Is the risk reduced, eliminated or accepted? |
|------|--------------|------------------------------------------------------|
| | | |
| | | |
| | | |
| | | |

Describe the actions you could take to reduce the risk and any future steps which would be necessary (e.g. new guidance)

PROPERTY OF THE NATIONAL
PRIVACY COMMISSION

| Risk | Approved Solution | Solution Approved by |
|------|-------------------|----------------------|
| | | |
| | | |
| | | |
| | | |

Describe the actions you could take to reduce the risk and any future steps which would be necessary (e.g. new guidance)

| Action to be taken | Date for completion | Responsibility for Action |
|--------------------|---------------------|---------------------------|
| | | |
| | | |
| | | |
| | | |

What solutions need to be implemented?

Summary

- This is not the OFFICIAL way to do a PIA or PbD. There are many ways to do a PIA, such as a workshop, a workflow, a survey, an interview. (See ISO 29134)
- This SIMULATION is meant to show the ROLES that need to be included in a PIA, the CONCEPTS which must be considered, and the essential ELEMENTS.
- PIAs submitted to the NPC will be reviewed for: stakeholder involvement, thoroughness of risk analysis, and completeness of controls framework.
- After six months, we will also review status of controls implementation, as well as results of a breach drill for the process.

“Compliance to Data Privacy Act is not a one-shot initiative. It is a discipline and culture that must be embedded on a continuous basis within the organization.”
